

**Proceedings of the Fourth International Specialty
Conference on Cold-Formed Steel Structures**

**June 1-2, 1978
Volume I**

Edited by Wei-Wen Yu and Joseph H. Senne
University of Missouri - Rolla

TECHNICAL SESSION NO. 1

DESIGN METHODS AND COMPUTER - AIDED DESIGN

AISI's Cold-Formed Steel Design Specification

A.L. Johnson

Load and Resistance Factor Design of Cold-Formed Steel Structural Members

T.N. Rang, T.V. Galambos, W.W. Yu, and M.K. Ravindra

Generalized Geometric Programming in Cold-Formed Steel Design

S. Ramamurthy and R.H. Gallagher

**BUCKLING BEHAVIOR AND POSTBUCKLING STRENGTH OF
FLAT ELEMENTS AND SHELLS**

Strength of Buckled Rectangular Plates

Y.L. Tien and S.T. Wang

Local Buckling of Cold-Formed Steel Members

V. Kalyanaraman

Edge Stiffeners for Cold-Formed Steel Members

T.P. Desmond, T. Pekoz, and G. Winter

Light Gauge Steel Cylindrical Shells

J.M. Davies and J.G. Young

TECHNICAL SESSION NO. 2

STRUCTURAL BEHAVIOR AND DESIGN OF BEAMS

Web Buckling in Beams

J.T. DeWolf and C.J. Gladding

Cold-Formed Steel Web Elements under Combined

Bending and Shear

R.A. LaBoube and W.W. Yu

Tests on a Continuous Purlin Roofing System

J. Rhodes, W. King, J.M. Harvey, and K. James

Maximum Load Design of Cold-Formed Steel Shapes

A. Hasegawa, W.B. Hall, and N.C. Lind

Applicability of Limit Design to Cold-Formed Box Beams

P.H. Sanders and J. Householder

COLUMNS AND FRAMES

Local Buckling of Thin-Walled Channels

K.R. Venkataramaiah and J. Roorda

Local Buckling Tests on Three Steel Large-Diameter Tubular Columns

A. Ostapenko and S.X. Gunzelman

Stability of Imperfect Closed Polygon Columns

C.E. Kurt and R.C. Johnson, Jr .

Stability Analysis of Locally Buckled Frames

S.T. Wang and G.E. Blandford

Strength of Cold-Formed Steel Studs Exposed to Fire

K.H. Klippstein
