

BASIC REQUIREMENTS FOR MANUSCRIPTS

Wei-Wen Yu International Specialty Conference on Cold-Formed Steel Structures 2016
November 9-10, 2016

Manuscript should be formatted on **8.5" x 11"** paper to the following specifications:

Margins – Top margin: 2.25 inches, Bottom margin: 2.0 inches, Left/right margins: 2.0 inches

Fonts – Title, 12 pt. Times Roman, Bold, Centered; Author, 10 pt. Times Roman, Centered; Text, 10 pt. Times Roman

Spacing – Four blank lines should be left before the title, text must be single spaced, with double spacing between title and author's name, author's name and first heading, between headings and text and all paragraphs.

Length – Manuscript must not exceed 15 pages, including tables and illustrations.

Author information - The author's full name and a footnote stating present employment or affiliation must appear on the first page of the paper.

Tables – All tables should be typewritten and specific illustrations and explanations for each table should appear in the text.

Conclusions – A set of conclusions must end the paper.

References - References cited in text should be arranged in alphabetical order in an appendix at the end of the paper, or preceding the Appendix. – Notation, as an Appendix. – References.

Mathematics/symbols - All mathematics must be typewritten and special symbols must be identified properly. The letter symbols used should be defined where they first appear in figures, tables, or text, and arranged alphabetically in an appendix at the end of the paper titled " Appendix. – Notation". Standard definitions and symbols should be used.

Dual units, i.e., U.S. Customary followed by SI (International Units) in parentheses, should be used.
